The regulations on data protection, known as the General Data Protection Regulation (GDPR) and Data Protection Act (DPA) 2018, apply to all organisations that hold any information that identifies living people. This is known as personal data. The 31st Itchen North (Amazon) Sea Scout Group (the Group) is committed to fully complying with the GDPR and DPA 2018.

This policy sets out the Group's approach to protecting personal data and explains the rights of Young People, Parents/Guardians and Adult Members in relation to how personal data is processed.

is always sought at the point of joining the Group. For those who join the Group before the age of 13, permission given by the Parent/Guardian is deemed to continue as from the Young Person's 13th birthday, but the Data Subject (Young Person) then acquires the same rights as all other Data Subjects.

11. How We Process Personal Data

The Group processes personal data using paper-based and electronic systems. It works with partner Data Processors including The Scouts, OSM, Flickr and Facebook. The Group has determined that partner organisations processing personal data on its behalf are compliant with GDPR as far as it can assess.

Personal data relating to members will always be stored on OSM as the Group's online data record platform. It will only be downloaded or used outside of OSM when absolutely necessary. Paper personal

details forms are used to initially collect personal data of a new member joining the Group. Once this personal data is collected it is input into OSM and the paper record destroyed.

12. Access To Personal Data

Access to personal data records is constantly reviewed and restricted to Adult Members who need access to undertake their appointed role within the Group. As a volunteer organisation it must be recognised that electronic records are accessed via devices not owned or controlled by the Group and which are the personal property of Adult Members within the Group.

All Adult Members within the Group who have been granted access to these electronic records are required to use security on their device in the form of the following:

- Strong and secure passwords.
- A firewall.
- Antivirus security.
- Data encryption.

Adult Members must ensure access to personal data is not possible by anyone else using their device or username and password. When an Adult Member disposes of their device any personal data on the hard drive must be fully erased.

In those limited situations where paper documentation is required to hold personal data, it should be stored securely under all circumstances e.g. filing cabinet or lockable box.

Adult Members with access to personal data are required to maintain that data in confidence and not to share it outside of a “need to know basis”.

All Adult Members with access to personal data will be trained in data protection by being required to complete The Scouts mandatory GDPR training module.

13. Data Retention And Disposal

The length of time for which personal data will be retained will depend on the nature of the data and the purpose for which the Group needs to retain it. Retention times for different administrative and legal purposes are as follows:

- Young People’s and Adult Members personal data - until the member leaves the Group.
- Attendance records for safeguarding purposes - indefinitely.
- Accident records - for 3 years after the accident occurred.
- Accounting purposes - for 6 years after the end of the relevant financial year.
- Notes and records from safeguarding investigations will be sent to The Scouts for retention and not kept locally.
- Adult Membership, involvement and training records will be kept on Compass and not in other forms. This will comply with the person’s membership and The Scouts policy.

Personal data, which is not required for any of the purposes listed above, will be maintained only for the period during which the member is an active member of the Group. Once a member leaves the Group all personal data will be disposed of securely.

Personal data will be transferred between sections when a member moves to a different section in the Group. If a member transfers to a different Scout Group, personal data will only be transferred to the new Group providing consent has been given by the Data Subject.

Photos and videos taken by Adult Members will be used by the Group in accordance with The Scouts guidelines. If a member later withdraws consent, previously published photos and videos are not capable of being removed. Regardless of this consent, the Group is not responsible for photos and videos taken by other parties.

Adult Members are not to engage in one to one conversations with Young People via chat facilities or instant messaging on social media. Adult Members are not to use their personal social media accounts to communicate with Young People, upload photos/videos or share any personal data.
